8pm –Maps and Questionnaires

JM handed out an annotated map to each member of the group. SG provided the 200 questionnaires which were printed on bright green paper. Everyone felt this was a good choice of colour because it would stand-out from the normal letters people receive. The questionnaires were divided out between the members of the group. However JM's mapping of the Parish had identified that we would need approx. 250 questionnaires. SG agreed to order a further 60 printed copies of the questionnaire to ensure there were enough to distribute and some spares in case households had misplaced their original copy when we returned to collect the completed questionnaires. The total cost of an extra 60 copies would be £13.62. The group unanimously agreed this would be appropriate.

The group agreed to meet again on 19th February at 8pm.

The meeting closed at 8.30pm
