Fri 18th Dec 2020 12 empty tins
Just reporting a dozen Heineken tins this morning which weren't there at 9:30 am but at 11:15am. They smell of smoke too!

Please add to your list. They were just loose on the lane, one by the bench and each side of the road. Liz collected them and put them in a plastic bag. They stink of smoke and have even left her carrier bag smelling of smoke, so my guess is they were just thrown out as the rain has not washed away the smell.

Mon 4th Jan 2021 this morning at 0845 I found 'Heineken Harry' must have returned to work and left this carrier bag full with empty cans plus a couple of roll up cigarette ends. Reported under 20/05857 to EDDC – EH Dept aware Harp Lane towards Podgers Pit.

Tues 12th Jan 2021

By the No Fly Tipping sign in Harp Lane - reported this morning two boxes and one carrier bag full of Heineken tins

This morning just after midday, whilst taking my daily exercise I came across these item strewn across the verge, just before Madge's cross. I picked all items up and carried them home and put them back into our recycling sack. It should also be noted this is not for the first time has occurred at this site.

Man 18th Jan

Latest offering from 'Heineken Person' but this time at Nutwells on Harp Lane. Circled in blue on the map. Red is the normal dumping area. Trying and narrow down a time frame. It has been pointed out that no bags of empties have been reported on the West Hill side of the Transport firm located on the B3180 just beyond the end of Harp Lane. Today's offering was 28 cans and about 14 roll own cigarette ends.

The culprit has now started leaving his bag and boxes in the Nutwells area of Harp Lane, The photos above are from this morning and must have been dropped off this morning before 1000 as the cardboard is dry and not soaked after last night rain

Just back from a litter pick. Quarter Mile lane down to Westcott. Sad to say we didn't think we'd collect as much as we did, mainly cans.

Sun 24th Jan 2021

Picked up another carrier bag full of Heineken Cans at Madge's Cross on Harp Lane this morning (25th) at 1000. This was dumped last night as there was frost on the bag.

Mon 25th Jan 2021 Bag of beer cans.

Two more bags of cans along Harp Lane this morning, one near Madges x (see above) and one nearer to Nutwalls at the field entrance. Must have been a boozyweekend!!

Walked up there this morning to find only 2 eye signs that you provided left. This is most annoying and shows a total lack of respect to all our efforts. I hope it is no one from the Parish. I also found another box with empty Heineken cans in. This I suspect with deposited last week as was in the bottom of the ditch as indicated.

Carrier Bag full general rubbish but 3 empty alcohol bottles. Half a dozen empty Costa or Greggs coffee cups.

Half Way House to Madge's Cross

Thurs 11th Feb

Tesco's Plastic bag full of empty tins. Has been there before last heavy rain as covered in vegetation. However 1 single can just up from this was new. Looks like it was tossed out as driving along.

[Mark Branson](#)

asked a question .

Well, how hard can it be?

Put out recycling and they empty your bin. Not difficult you would think...

Until they decide to mix up your bins all along the road. We now have a large green bin but a lid that's too small! Has anyone got a green bin and a lid that's too big? Oh and it's got The Hawthorns written on it (a bit faded)?

Please can we have our bin back.....thanks

I give up. We must have had at least 3 replacement bins of all types due to them being damaged

towards the village.

I've picked up a bag of Heineken cans this morning at madges cross (Road heading towards the halfway inn). Window of the drop is between 7.45am (the time I drove through to take the kids to nursery) and 8.05am (when Graham drove through to go to work), so it narrows it down a little and does make me wonder about someone being on their commute. It was located approx 50m up from the Cross road and the box a further 10m away. It makes me think that if they were moving whilst throwing it away, based on its location, I would anticipate direction of travel being

Thurs 18th Feb (am)

Crumpled Stella can carefully placed right in front of one of the signs at the end of Harp Lane. Obviously the culprit thinks that's funny. NOT, just stupid !! Also , a couple of surgical masks discarded along the Lane. Some people are so ignorant

Jane

There were 2 masks on Marwood Road yesterday as well 😞

Helen

I spotted a whole bag of beer cans in the ditch by harp cross today too 😞

Ro

2 bags of household rubbish dumped on grass opposite end of Harp Lane. We have an address that was inside it. Informed Council, nothing happened so RSPB are taking it away.

Some of this is old stuff. Such as land drain. But 8 cans 2 bottles, pipe expanded polystyrene insulation. Plus rubbish blown out of recycling bins etc. And a pair of 👁️!!

I think this has been washed downstream from the bags of plastic toys dumped in the stream on the road above Madge's Cross that I removed 18months ago!

Which I suspected had fallen off a vehicle going to the recycling centre.
